

FareLogix PNRRetrieve Converter

- Convert seamlessly your Lufthansa NDC FareLogix file into a common GDS format
- No local installation required. You just link your NDC PCC with WDG's Service PCC. And all your Data is autoqueued.
- Remark lines allow you to be compliant with your TMC specific Mid-Office

COMPLIANCE

Our application is compliant with PCI/DSS Standards as well as GDPR requirements.
Our Servers are located in Germany, complying with the highest European standards

SECURITY

Once converted, no file data remains on our servers.

TRANSFER DATA

Your Data to your mid-office system or target directory is only send via secure file transfer protocols.

SERVICES by WDG

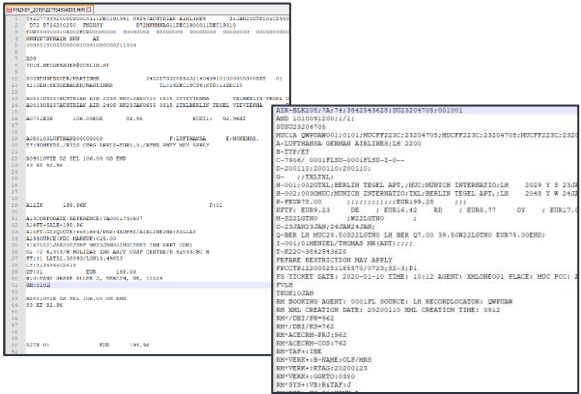

- Installation and Setup
- Updates
- Technical Application Support

What's in it?

The Converter makes use of the rich data from the Lufthansa NDC content booked via Farelogix to create the GDS file.

All NDC actions are transferred:

- Ticket, Exchange Ticket, EMD-S, EMD-A, Residual EMD, Void and Refund

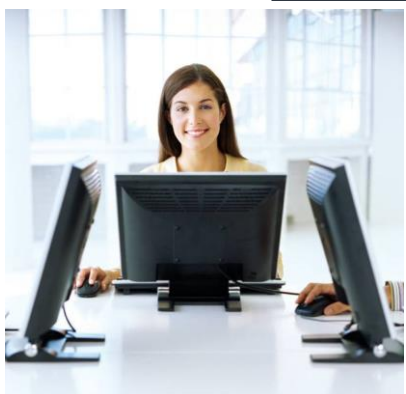

Mid-Office Remarks

- Each TMC's mid-office uses different coding to insert additional information for either processing the invoice or for reporting purposes
- Your PNR-Remarks from the SPRX booking are added into your GDS File Format
- Transfer your enhanced data for credit card companies such as Airplus to your mid-office
- Add lines for instant invoicing or printing features your mid-office offers. Or prevent events from being triggered.
- Format conversions not adaptations. Our application takes the values as they come from the booking sources. We do not adapt values.
